

**SOME OF OUR
CONTAINER
OFFERINGS ARE
"JUNIOR"
IN SIZE BUT OUR
COMMITMENT
IS HUGE!**

In today's ever-changing business world, suppliers need to ship product back-and-forth to deliver goods to their customers. In addition, product is moved throughout warehouses and stored for customer convenience as well. For transit and storage of all your smaller applications, American Wire Products now offers two junior sized containers, one with 1/2" x 1/2" mesh and the other with 1" x 1" mesh.

Wire Mesh Folding "Junior" Containers

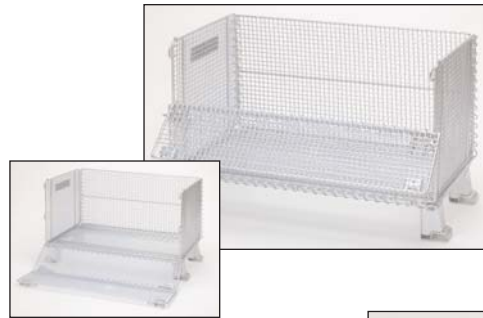

American Wire Products' Wire Mesh Folding Junior Containers are perfect for smaller applications that require up to 1,100 pounds capacity. With the option of 1/2" x 1/2" mesh or 1" x 1" mesh, these containers allow for visual inventory of small parts without the hassle of losing items during storage or while the containers are being transported. These containers provide storage in the warehouse or to ship product to another location.

Dimensions / Mesh / Capacity:

- 20" x 32" x 21" (OAH) / 1/2" x 1/2" / 1,100#
- 20" x 32" x 21" (OAH) / 1" x 1" / 1,100#

Above: Wire Mesh Folding Junior Container with 1" x 1" mesh. Gate is not folded.

Left: Wire Mesh Folding Junior Container with 1/2" x 1/2" mesh. The large picture reflects the double-drop gate folded half way. The smaller picture reflects double-drop gate fully dropped.

Twelve reasons your American Wire Products' Wire Mesh Folding Junior Containers are best for your small application storage:

- Two standard stock junior container models.
- Ideal for work cells with limited available footprint.
- Tight mesh pattern to store smaller items.
- Individual container weight does not exceed 55 pounds.
- Holds 1,100 lbs. capacity.
- Can stack three (3) high, fully loaded.
- Collapsible.
- Double-drop gate for easy accessibility to parts.
- Gate locking mechanism to avoid unintended opening of container.
- Zinc-coated finish.
- Ship 48-72 hours upon the receipt of order (subject to availability).
- Channel base understructure for added strength on two containers with 1,100 pounds capacity.

Right: AWP's Wire Mesh Folding Junior Containers stacked 3 high. Note the stronger channel base on the bottom container to yield 1,100 pounds capacity.

A unique part of the American experience

AWP now offers the additional convenience, cost-savings, and benefits of "Junior" size containers available in 48-72 hours. The "Juniors" at 1,100 pounds are an additional option to the existing three standard stock containers with 4,000 pounds capacity and 2" x 2" mesh. It's just one more of the many things that makes the American experience unique. To put our experience to work for you, call 1-800-666-9938.
