

THE MOST FLEXIBLE
SOLID
STEEL BULK CONTAINERS
IN THE
INDUSTRY.

It is the greatest combination of strength and flexibility in the industry. Constructed of 12- or 14-gauge solid steel and capable of holding up to 4,000 lbs., our industry-pioneering Folding Bulk Containers give you near-impregnable protection and can be used for virtually any application in material handling, storing and shipping. Fully loaded, they can be stacked four high while giving you the added flexibility of collapsing at a 2.3:1 ratio for return shipping and storage. Of course, with American Bulk Containers, you always have the flexibility to specify your own folding bulk container and let us make it for you.

Folding Steel Bulk Container

With the Folding Bulk Container, you have the core element of a highly flexible yet extremely strong, low maintenance system that will meet your needs for years.

There are two standard models available:

Model BCF-454833 specifics include:

- Dimensions: 45" (1143mm) x 48" (1219.2) x 33" (838.2) OAH
- Solid 11-gauge tubular steel corner posts
- Corrugated 14-gauge steel panels for added strength
- Skid rails on long side
- 14-gauge flat floor panel, corrugated end and side/drop side

Model BCF-486334 specifics:

- Dimensions: 48" (1219.2mm) x 63" (1600.2) x 34" (863.6) OAH
- Solid steel 3" x 3" x 3/16" angle corner posts
- Corrugated 12-gauge steel panels for added strength
- Skid rails on short end
- 12-gauge corrugated sides, end and floor

The Folding Bulk Container offers a number of options:

- Four skid rails for use on conveyers
- Kanban plates
- Casters
- Fork sleeves or stirrups
- Custom sizes and colors

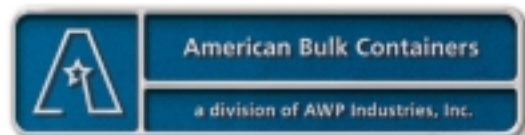

Nine reasons our Folding Corrugated Steel Container will stand up to the most demanding applications:

- 4,000 lbs. capacity
- Stacks up to four high
- Fire and impact resistant
- Maintenance free
- Half-drop access door on both long sides
- Knocks down at 2.3:1 return ratio
- Stacking caps and targets for secure stacking
- Ideal for over-the-road and rail transportation
- Powder coat finish

A unique part of the American experience

We've made ISO 9001/QS-9000 a unique part of the American experience. It's the level of quality you need to last in the tough, hard-working world of material handling, storage and shipping. It's world-class quality. Only now it's close to home. To put American experience — and American quality — to work for you, call 1-800-666-9938.
