

OUR
CONTAINERS MAY
FOLD
BUT NOT OUR
COMMITMENT.

In fact, American Wire Products' Standard Folding Wire Mesh Container shows just how totally committed they are. This container's combination of economy, flexibility and functionality makes it the most effective and efficient choice for the vast majority of material handling, shipping and storage applications. At a very competitive cost, it gives you the full functionality of a wire mesh container (easy to see the inventory, maintenance free, etc.) yet it folds down neatly and economically for storage or shipping. To further show you how committed AWP is, they're ready to change, redesign or create a whole new folding wire mesh container to fit your unique applications.

Folding Wire Mesh Container

American Wire Products' Folding Wire Mesh Container is an essential and flexible unit for material handling and storage. These containers can be used for a multitude of tasks yet is virtually maintenance free. They are lightweight yet very durable, holding up to 4,000 lbs.

The low cost on their standard containers make them even more attractive! Three of our most popular folding wire mesh containers are available from stock (48-72 hours upon receipt of order).

Dimensions:

- 32" (812.8mm) x 40" (1016) x 28" (711.2) IH (34" [863.6] OAH)
- 40" (1016mm) x 48" (1219.2) x 30" (762) IH (36" [914.4] OAH)
- 40" (1016mm) x 48" (1219.2) x 36" (914.4) IH (42" [1066.8] OAH)

The container not only folds to save you storage/shipping space, it can be stacked four high when loaded to save you warehouse space. Each container in the stack can hold up to 4,000 lbs., a total of 16,000 lbs. in an area as small as 32" x 40".

The mesh design makes everything in the containers visible for quick inventory checks. Stock containers come with unique safety features, such as safety lugs that ensure containers will remain stacked and the Safety corner reinforcing rings that prevent distortion. Stock containers are available with a long-lasting zinc-coated finish.

American Wire Products is always ready to custom build wire mesh containers to your unique specifications. There are also a number of options you can choose with our custom build folding wire mesh containers, including:

- Square-Stack legs for secure stacking
- Tags, labels, card holders
- Gate styles: 1/2-drop; double-drop; full drop; partial-drop; swing out [end(s) only]
- Casters, fork sleeves, runner bars
- Dividers or security lids
- Custom feet available

Thirteen reasons your American Wire Products' Folding Wire Mesh Container won't fold under pressure:

- Safety corner rings for reinforcement
- Safety locks to prevent accidental openings
- Double-bead wire perimeter
- U-loop to keep end panel in place for added stability
- Full-perimeter base frame protects helix (spiral) and allows side-by-side stacking
- Up to 4,000 lbs. capacity
- Stacks four high, fully loaded
- Collapsible
- Open-mesh design for visible inventory
- Three standard stock container sizes
- Stock containers have zinc coat finish. Most custom containers are finished with an oven-baked gray to prevent rust and abrasion. Custom colors available.
- Can be custom made to your specs (some options listed above).
- Half-drop gate on long side are standard for 'Quick Ship' containers.

A unique part of the American experience

We know that no matter how much you love our wire mesh containers, you would love them more if they cost less. That's one of the reasons we're always looking for ways to be more efficient and increase our productivity. That way, we can lower the price while maintaining or even increasing the quality. It's just one of the many things that makes the American experience unique. To put our experience to work for you, call 1-800-666-9938.
